# ALLURE

Allure conveys the strength, character and temperament of the stone on which this collection is inspired. The veins have been carefully treated to highlight the personality of this material. The result of this work is a set of captivating and aesthetic pieces that will beautify the space where they are installed. The series presents a Soft Bush Hammered surface that reproduces to the touch the characteristic texture of the natural material; which together with the four tones in which it is presented, extend the possibilities of combining the collection of collections Contemporary Mixtures Surfaces.

# EOS

Eos is essence, matter; it is the return to the natural world, to the origin of all things. All the subtleties of natural wood have been taken care of to inspire a refined and elegant material. This collection is nature for the five senses, because it transmits serenity and calmness. Eos presents large rectangular formats 20x120 cm, reminiscent of the extensive forests of northern Canada; that, together with the four sober tones presented by the series, modularly complete the Contemporary Mixtures Surfaces set.

# EME

The light and beautiful design of Eme transmits the serenity of the Mediterranean Sea, as it is inspired by and represents the richness of the warm coastal land. The firm personality of the stone merges with the light design of watery areas, to present a balanced proposal. Thanks to the variety of formats that Eme presents and the extensive chromatic range composed of three natural shades, this series becomes essential within the Contemporary Mixtures Surfaces set due to its versatility and modulation possibilities.

# BERA&BEREN WALL

The Bera&Beren Wall collection takes as a reference the Portuguese and Catalan limestones to propose a series of visual complements to the whole Contemporary Mixtures Surfaces set. Without losing the minimalist and refined character that represents this series of stony character, a functional and great personality wall tile collection is presented in 30x90 cm. This collection offers a choice of four timeless and natural tones, and three reliefs: Dot, which highlights the pleasant Bush Hammered texture own of stone; Saw representing engraving effect of horizontal lines and Six, forming a distracted network of regular hexagons.

# GUBI-WALL

The polished look of microcement grants to Gubi Wall collection a minimalist and modern character. This is a perfect complement to the whole Contemporary Mixtures Surfaces set by the high functionality that gives the 30x90 cm format and the four colors choice. The heterogeneities of the natural surface, the aqueous effects and the salts have remained to propose a series of three simple and elegant reliefs. First, Calm conveys harmony and is soft to touch, while Prints highlights the beauty of imperfection and Peak creates a unique optical game.

# METEOR

Full Body Porcelain Tile

Grespania's METEOR series is a full body technical porcelain made up of a homogeneous, compact mixture of clays and natural materials with a high proportion of recycled products making it a very natural, environmentally-friendly porcelain option. The METEOR series boasts extremely high technical specifications ensuring it is very recommendable for high-traffic areas. Due to the versatility of the product, the METEOR series can offer itself to a multitude of solutions for diverse tiling applications, able to differentiate itself by means of varied textures satisfying anti-slip requirements and in some cases energy-savings.

GRESPANIA

# TIVOLI

With the Tivoli series, Grespania has expanded its range of porcelain tiles inspired by semi-precious stones. The design for Tivoli is based on agate, a natural stone that has been prized since ancient times for its beauty and strength. Available in two finishes, natural and polished, and in a form of the large-format 60x120, this series can be used to create multifaceted compositions, endowing rooms with character and cachet.
