FLORIM

Italia Collection

Luxury design

Prestigious and refined materials from among the most precious that nature has to offer. Ostentatious luxury or sophisticated use of materials for a more informal and resolute elegance.

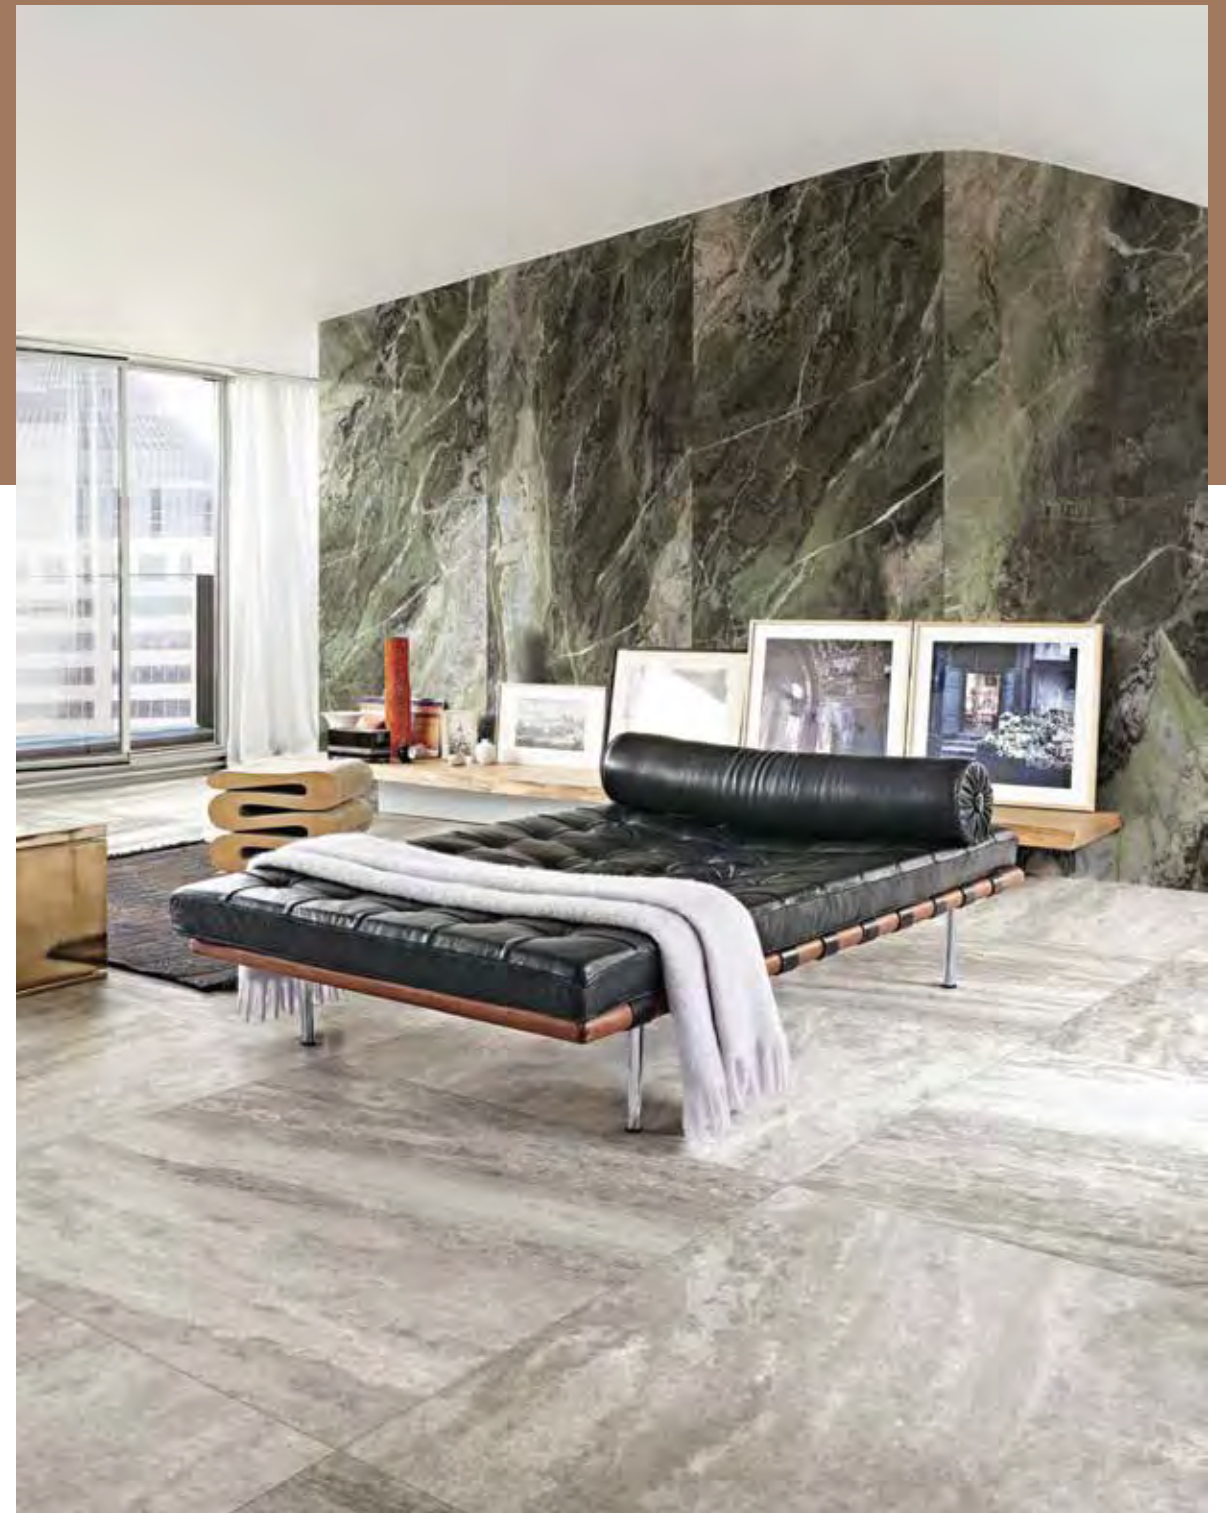

Rare, precious, and intimately linked to the human condition, the material is reinterpreted to express the concept of the modern space.

HERITAGE LUXE

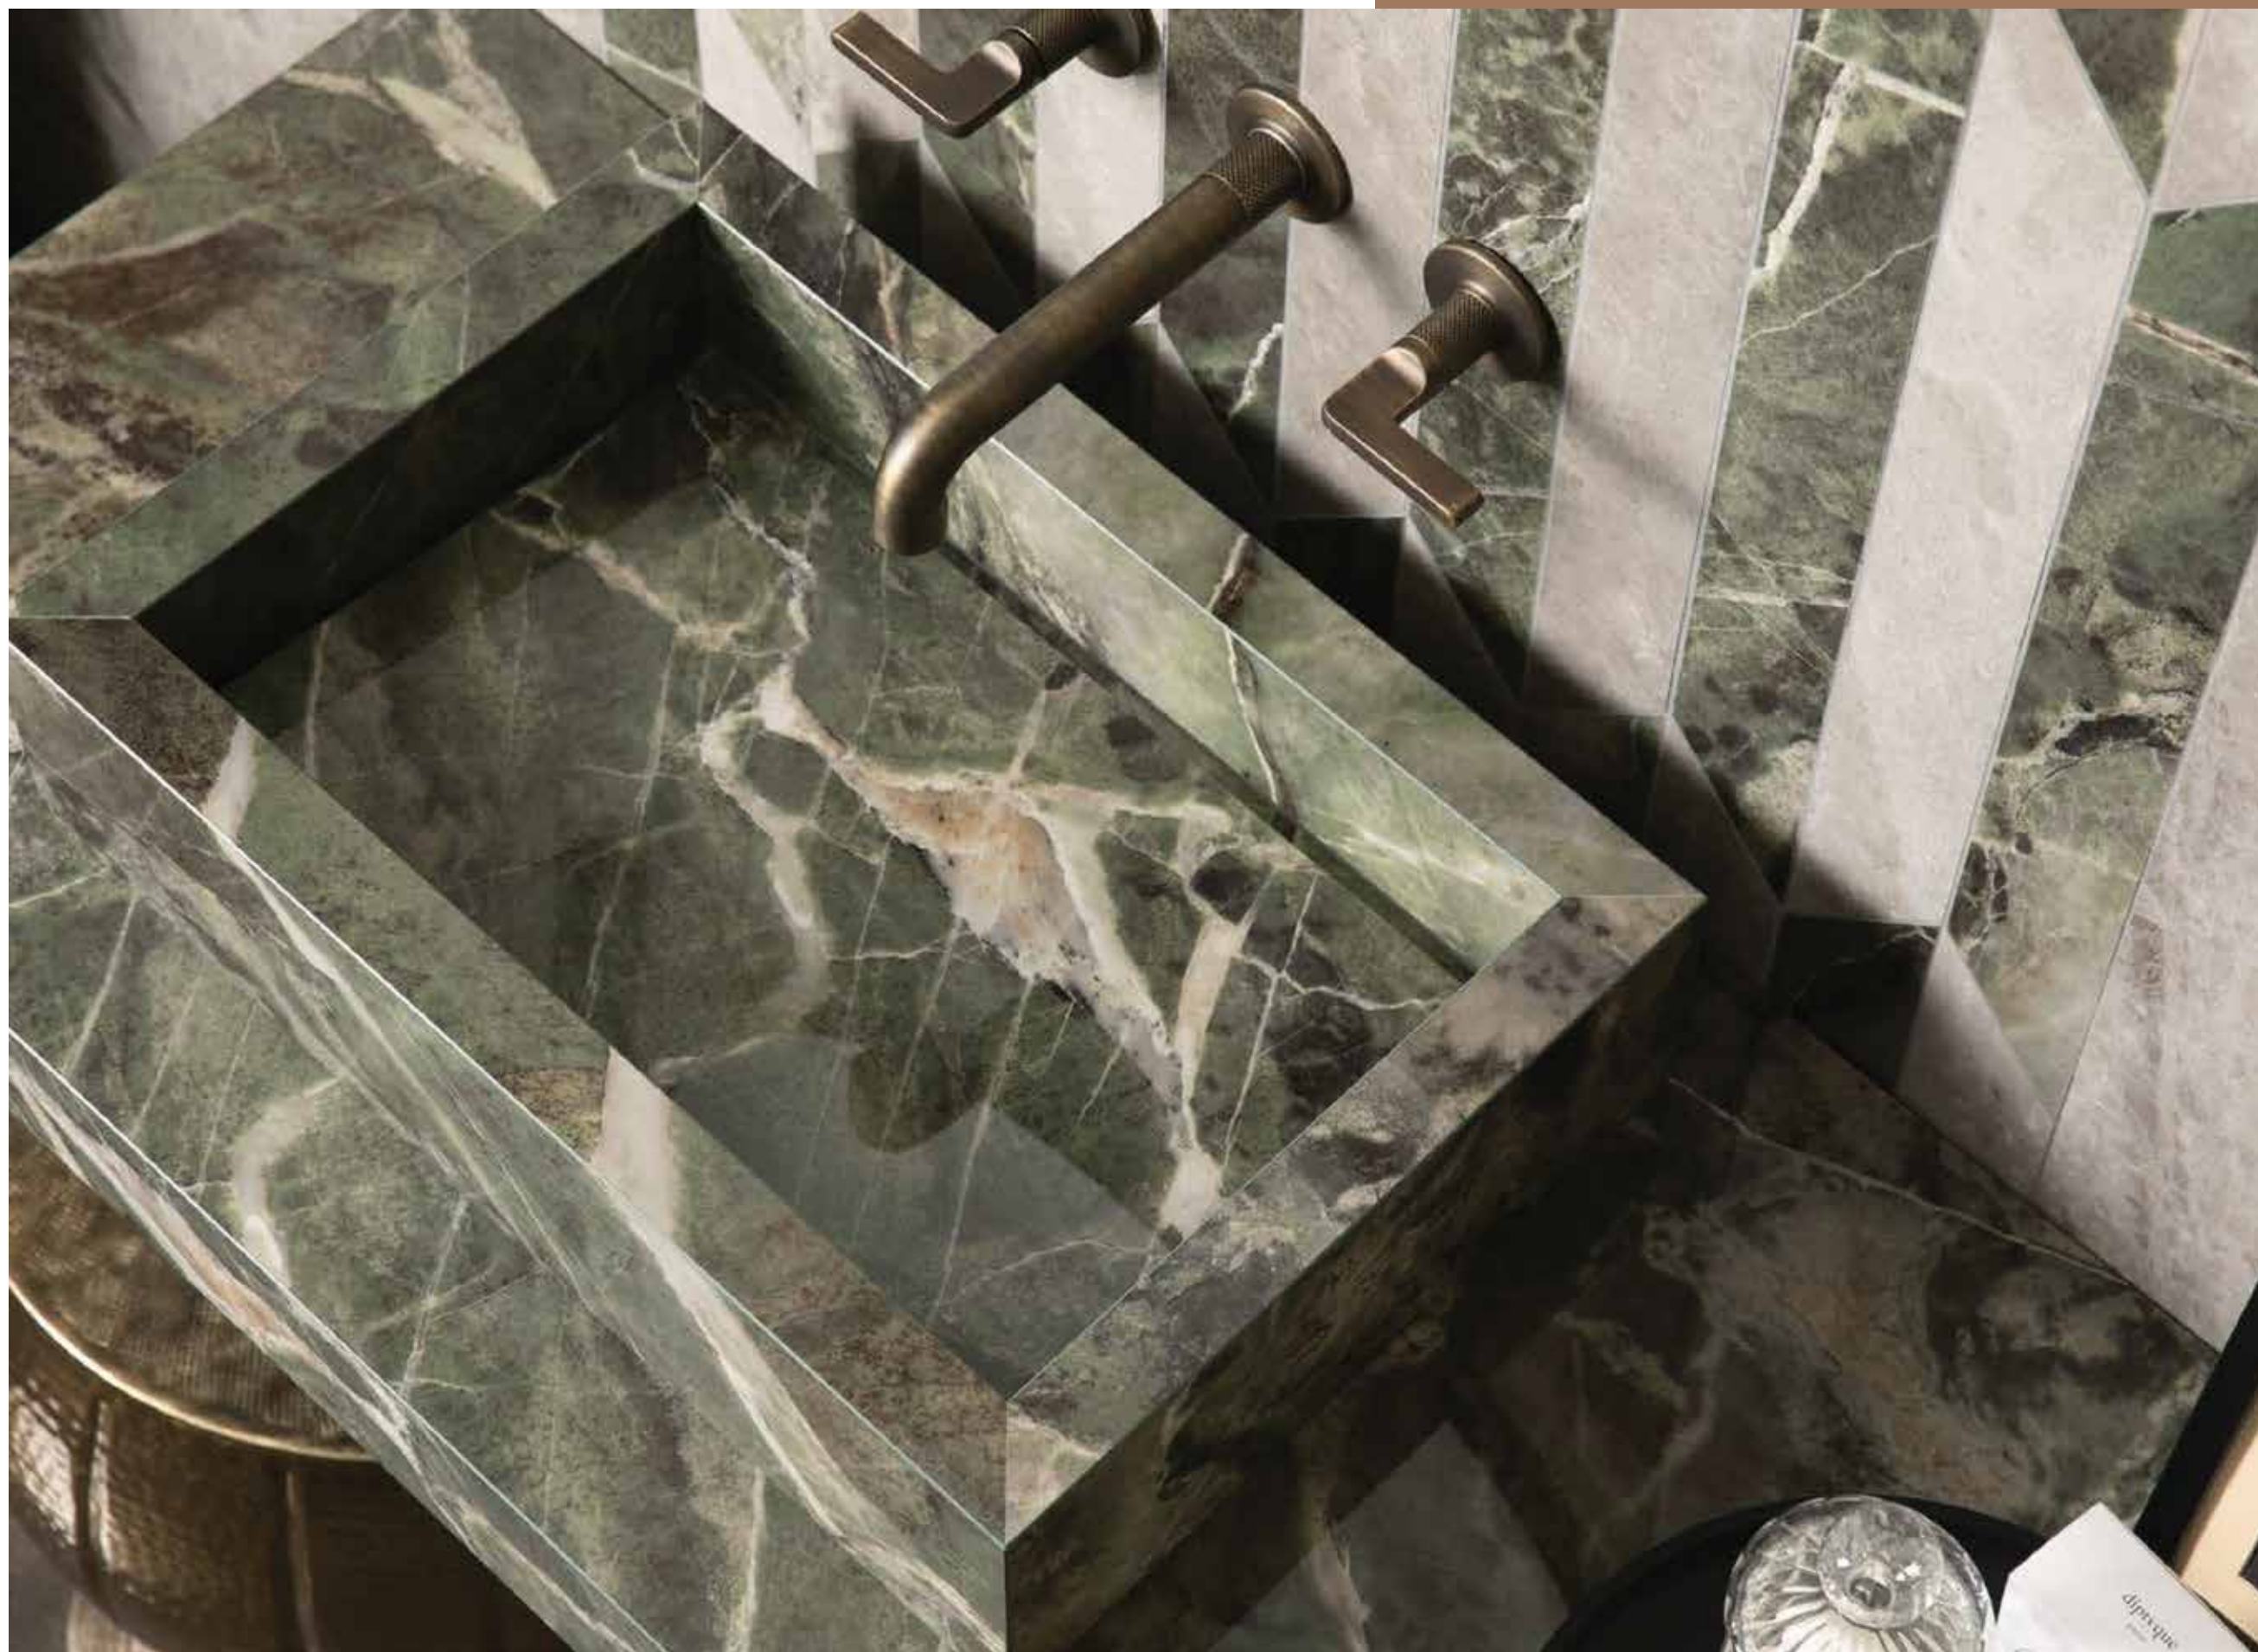

Taking inspiration from the noble hues and majestic veining of marble, the Heritage Luxe collection accompanies us on an imaginary journey to rediscover an artistic and architectural heritage of inestimable cultural value that we are now privileged to inherit. Since ancient times, palaces, sculptures and monuments in Europe have been created from colored marble, considered almost like a form of natural or divine painting thanks to its vivid veining and varied color palette.

Italia Collection

Floor / Wall : Nature mountain peak glossy 120x240 47¹/₄"x94¹/₂"

Creative design

Complete projects (designer or interior design) aimed at interior design in which elegance and creativity find a perfect balance. The project is expressed through a constant dialogue between the search for colour and material contaminations of natural inspiration.

NATURE MOOD

With the Nature Mood collection, the natural environment “invades” man-made spaces, enters our homes and becomes part of the way we sense and experience our surroundings, influencing our mood in a positive way. Floors, wall coverings and furniture become an emotional backdrop interwoven in a harmonious dialogue of nuances and veining, making it possible for us to rediscover that psycho-physical balance from which increasing urbanization and technology often distance us.

SENSI

"Sensi" Designed by Matteo Thun surprises visually and tactilely with attractive neutral shades that shape fluid spaces. Surfaces and interplays of light define a decorative concept inspired by non-colour and the graininess of earth. Sensi embodies the tactile experience of touching earth, and of interpreting mineral essences mixed and forged over time, in a material texture to be caressed with the eyes. Solid, vigorous and concrete, earth evokes in us a personal sentiment, reminding us of the strength of nature. With Sensi, delicate, natural colours and the tactile experience of sand recall a simple lifestyle that leaves the unnecessary behind. The intimate, sophisticated harmony of nature is reflected in living-spaces that offer an individual sense of comfort and slow rhythms, where energy and balance can be regained.

Floor : Plimawhite/02/03 structure

Architectural design

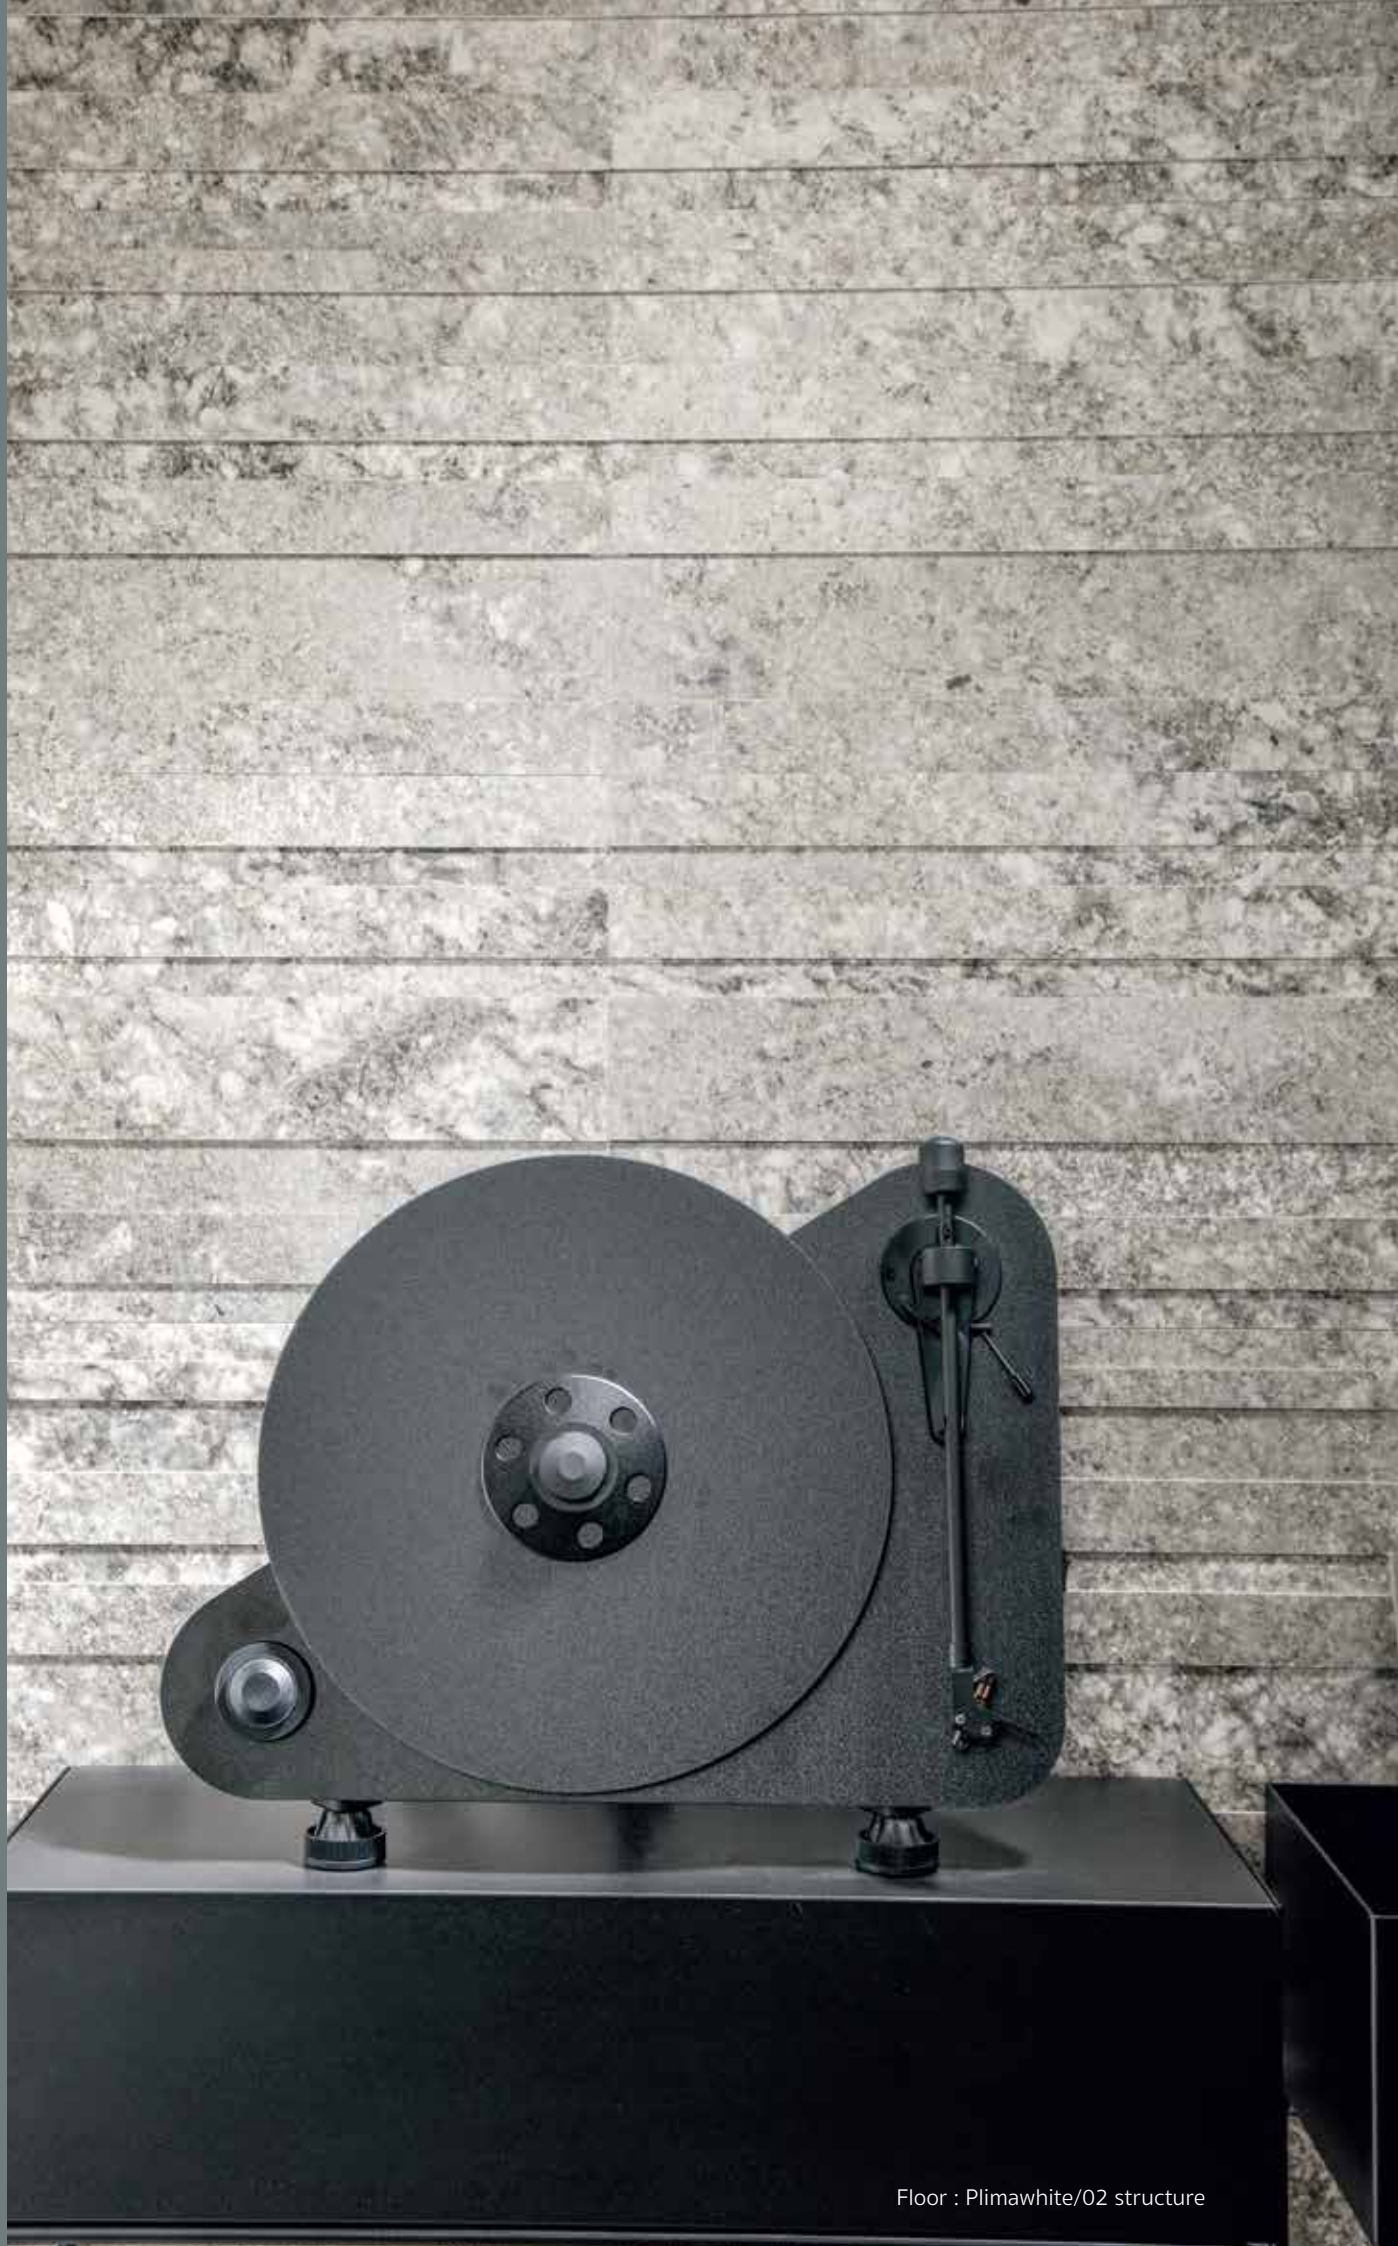

Technical material in line with architectural trends, for applications such as industrial flooring and public buildings with medium to high footfall, such as airports, shopping centres, restaurants, offices, shops, as well as residential applications featuring a targeted aesthetic content

PLIMATECH

The inspiration for Florim's Plimatech Architectural design comes from high up in the Martell Valley of the Alto Adige region.

Modeled on a variety of granite called Plima, this collection combines the innumerable technical and design advantages of porcelain stoneware with the natural look and feel of a highly sought-after stone.

FORIM

Wall : Match-up earl grey mix glossy 120x240 47-4"x94 1/2"

Contemporary design

Versatile, dynamic and fresh material suitable for decorating any domestic environment according to your own style and personality. The different surfaces are also the most appropriate solution for medium and low traffic commercial applications

MATCH-UP

Match-Up features an interplay of different contrasts that interrupt the bareness of minimalist interiors through tactile patchwork suited to a balanced mix and match of styles and colours. Match-Up is therefore a fresh project that places no limits on individual choices and enhances the space with a few carefully chosen interchangeable elements that express your ideas and personal taste.
