FORIM

Italia Collection

Luxury design

Prestigious and refined materials from among the most precious that nature has to offer. Ostentatious luxury or sophisticated use of materials for a more informal and resolute elegance.

Rare, precious, and intimately linked to the human condition, the material is reinterpreted to express the concept of the modern space.

Italia Collection

ECCENTRIC LUXE

The enchanting appeal of onyx is encapsulated by Florim's Eccentric Luxe collection, which celebrates the exceptional beauty of this rare and breathtaking stone.

HERITAGE LUXE

Taking inspiration from the noble hues and majestic veining of marble, the Heritage Luxe collection accompanies us on an imaginary journey to rediscover an artistic and architectural heritage of inestimable cultural value that we are now privileged to inherit. Since ancient times, palaces, sculptures and monuments in Europe have been created from colored marble, considered almost like a form of natural or divine painting thanks to its vivid veining and varied color palette.

Architectural design

Technical material in line with architectural trends, for applications such as industrial flooring and public buildings with medium to high footfall, such as airports, shopping centres, restaurants, offices, shops, as well as residential applications featuring a targeted aesthetic content

BIOTECH

Nature-friendly industrial stones

Devised for architecture projects, it contains a selection of industrial stones with large formats. They have been produced using innovative technologies that take things to an even higher level than the customary production efficiency found in Florim's Industry 4.0 factories, with high standards of technical and aesthetic performance.

EARTHTECH

An eco-friendly, organic and technologically discerning material traces the origins of earth as an ancient building material with the customary bold and visionary look of Florim, geared towards the most modern environmentally-friendly living trends. This is Earthtech. The industrial history of Florim, in which intuition and technology are merged with a keen focus on the quest for aesthetic appeal, results in a full body collection, produced to the highest standards of sustainability, contributing towards building the city of the future.
