## GALVANIC

Urban, dynamic and elegant: Grespania's new Galvanic series of wall tiles. With a richly textured effect that suggests a metallic finish, its applications extend beyond the home and into new areas, both public and private. The series comes in 31.5x100 cm format and two colours White and Aluminumthus opening up a wealth of options for interior designers and decorators when it comes to choosing new wall tiles.

## VERSO

The Verso collection is inspired by Travertine sedimentary rocks, formed from the sediments formed in hot springs and waterfalls. The Verso Vein Cut finish suggests cutting along the grain, revealing each of the individual strata

Wall : VONN GREY

# VONN

The Vonn series is based on a fusion of marble, creating a collection inspired by the most fascinating facet of nature: its efficiency and ability to adapt to its surroundings. Far from being merely style over substance, Vonn goes a step further by accurately reflecting the material in its natural state, bearing in mind that it varies according to its location and the conditions to which it is exposed.

The colours are also inspired by nature and with the most demanding architecture in mind.
